

a Utah arrays in motor cortex

Hand area, left hemisphere (fsaverage).
T5, T6, T9 and monkeys N, C, M,
1.5–7.3 years each

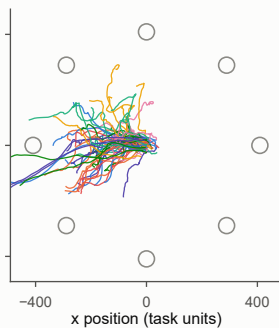

**b** Mean spike waveforms, T5 lateral array**c****d****e**

Offline reconstruction of the same movements from neural activity

Same-day decoder
 $R^2 = 0.56$

Decoder from 478 days earlier
 $R^2 = -0.28$

Same decoder, re-weighted
 $R^2 = 0.44$
